Aktualności

GRUDNIA/ STYCZNIA

9 stycznia nasi uczniowie uczestniczyli w happeningu dotyczącym życia i twórczości Banksy'ego.

12-14 stycznia uczniowie ósmych klas pisali próbne egzaminy, by sprawdzić poziom swojej wiedzy przed zbliżającymi się egzaminami w maju.

16 lutego uczniowie naszej szkoły wzięli udział w piętnastej edycji Nocy Biologów, która odbywała się na Uniwersytecie Jana Kochanowskiego. Nasi koledzy na pewno dużo skorzystali z udziału w tym wydarzeniu.

Nie lada wyczyn naszego ucznia! Piotr Pela z klasy 8a awansował do trzeciego etapu Wojewódzkiego Konkursu Przedmiotowego z Informatyki. Serdecznie gratulujemy i życzymy powodzenia podczas finału konkursu.

Ferie w naszym województwie rozpoczęły się jako pierwsze. Liczę na to, że wypoczęliście, dzięki czemu macie siłę i motywację do nauki w drugim semestrze roku szkolnego.

MIKOŁAJ OLEJARCZYK

What's new?

February 1, 2026

Los Angeles, the USA:

Grammy Awards!

This year it is the
68th edition of this great music awards
celebration!

Its aim is to honour the best compositions,
artists and recordings from August 31, 2024, to
August 30, 2025.

**What do Chinese zodiac signs say
about you?**

In 2026, Chinese New Year starts on
February 17.

People who are born in 2026 are Snakes
(before February 17) or Horses (after
February 17) according to Chinese zodiac
signs.

February 14,

Love is in the air!

What is it like to fall in love?

**Do you feel butterflies in your stomach when you
think of your beloved one? Does everything seem
easier and more beautiful to you? Can you see the
sun even if there is heavy rain outside?**

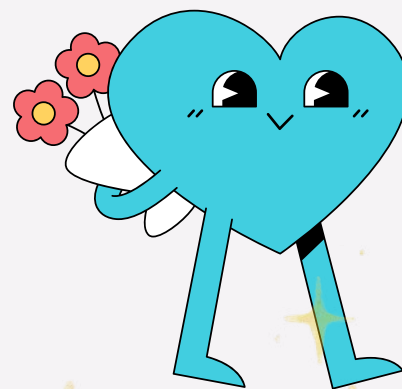

If the answer is YES, it must be LOVE!!!

FEBRUARY 17,

CATS RULE!

**Fluffy, individual, sweet, funny,
crazy, friendly, patient...**

Hug a cat and make their day!

February in the sky!

**In February, you can't miss an opportunity to
observe some fantastic phenomena in the sky!
Even if you aren't a fan of astronomy, you will
be in seventh heaven when you see stars in
love!**

Welcome February!

Why is February so short?

February is the shortest month of the year. It has only 28 days.

Every four years, February has 29 days. This year is called **a leap year**.

Long ago, the Romans made the calendar. They wanted some months to have 30 or 31 days. February was the last month, so it got fewer days. Leap years help keep our calendar correct. They help the seasons stay in the same months.

Fun fact:

February is the only month that can have 28 or 29 days!

Animals Waking Up from Winter Sleep

In winter, some animals sleep for a long time. This is called **winter sleep**.

In February, some animals start to wake up. The days are longer and the weather is warmer.

Animals that wake up in February:

- bears
- hedgehogs
- frogs
- bats

They wake up to look for food and water. Winter sleep helps animals survive the cold winter.

Fun fact:

Bears can sleep for many months without eating!

On February 2nd, the United States and Canada celebrate **Groundhog Day!**

According to some tradition, if the groundhog sees its shadow, winter will last longer, but if it doesn't, spring will come sooner.

It's more a fun tradition than a real weather forecast!

JAK ZNALEŹĆ ZAINTERESOWANIA?

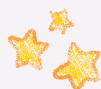

JAKIE ZAINTERESOWANIA MOGĄ MIEĆ UCZNIOWIE?

Wielu uczniom trudno znaleźć zainteresowania, jednak jest wiele zajęć, które mogliby wykonywać w czasie wolnym, zamiast korzystać z mediów społecznościowych.

Oto kilka przykładowych:

- szydełkowanie
- rysowanie
- tańczenie
- układanie puzzli
- budowanie lego
- malowanie
- pisanie
- czytanie
- szycie
- projektowanie
- tworzenie lub słuchanie muzyki
- uprawianie wszelkich sportów

JAK ZNALEŹĆ ZAINTERESOWANIA?

Znalezienie zainteresowań nie jest takie trudne, jak nam się wydaje. Najważniejsze jest to, aby nie bać się próbować nowych rzeczy, i czasami wyjść ze strefy komfortu. Zwróć uwagę na to, co cię najbardziej ciekawi podczas rozmów oraz o czym najczęściej myślisz. Pamiętaj przede wszystkim o tym, że twoje zainteresowania wcale nie muszą być ambitne ani użyteczne, najważniejsze jest to, aby sprawiały ci one przyjemność. W moim przypadku znalazłam swoje zainteresowanie z nudów, zaczęłam wtedy szukać w internecie aktywności, którą mogłabym wykonywać. Znalazłam reklamę zajęć tanecznych i w ten sposób znalazłam swoje hobby.

JAKIE ZAINTERESOWANIA MAJĄ NASI UCZNIOWIE

Zainteresowaniem Natalii Krogulec z klasy 8B jest ćwiczenie na siłowni, ponieważ bardzo lubi uprawiać sport oraz uważa, że można tam zawrzeć nowe znajomości.

Zainteresowaniem Zuzanny Jęczmińskiej z klasy 8B jest jazda na łyżwach, ponieważ lubi ona wszelkie sporty zimowe oraz aktywność na śniegu.

Zainteresowaniem Julity Przybylskiej z klasy 6A jest taniec, ponieważ sprawia jej on przyjemność. W wolnych chwilach lubi również rysować.

WIKTORIA

World Cat Day

February 17

First celebration

The first celebration took place in 1990 in Italy. It started with an idea of an Italian journalist - **Claudia Angeletti**.

When do we celebrate it?

World Cat Day is celebrated on February 17 every year.

Why do we celebrate it?

We celebrate it to recall the role of cats in human life and also to promote the adoption of our four-legged friends.

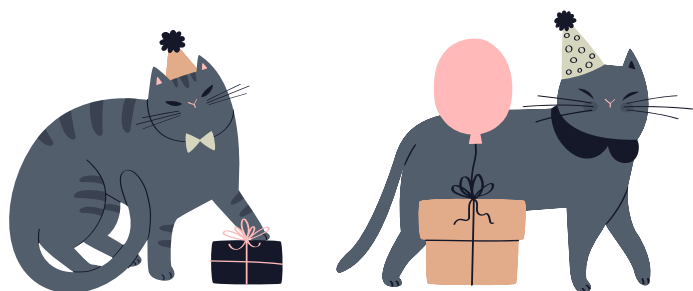

Example gifts for your cat!

- their favourite snacks, as cat owners know, cats love eating!
- some new toys, like plush mice or rods with colourful feathers,
- a comb to brush their fuzzy fur,
- a scratching post

Interesting facts about cats

- cats remember people for years,
- cats can't taste sweetness, that's why they aren't attracted to food like chocolate,
- cats, despite their smaller size, have 24 more bones than humans!
- every cat has a different nose print!

Why do people think black cats bring bad luck?

In medieval ages, people believed that witches can transform into black cats. Christians believed that black colour is a symbol of satan. During the Black Plague, black cats were blamed for this fatal disease.

Why are cats so sociable?

Cats are very sociable because they are very grateful to humans and because humans are the only ones who give them a warm and comfy place to live in.

Jak zapobiec uzależnieniu od telefonu?

Masz problem z nadużywaniem telefonu? W tych czasach uzależnienie od telefonu to światowy problem, z którym zmagają się zarówno nastolatki jak i dorośli.

Mój artykuł ci z tym pomoże!

Najlepszym - i w moim przypadku najskuteczniejszym sposobem, jest ustalenie sobie limitów czasu na danych aplikacjach na telefonie. Na początku może wydawać się to trudne i może cię korcić do kontynuowania scrollowania, ale ważne jest, abyś nauczył się dyscypliny i zobaczysz, że z czasem sam zaczniesz odstawiać telefon!

Świetną ideą jest również zrobienie sobie wyzwania, np. cały dzień a nawet cały tydzień bez telefonu!

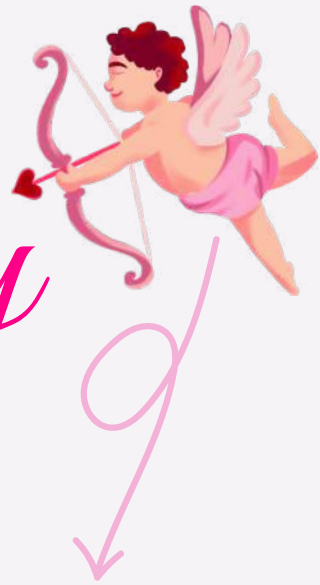

Kolejnym pomysłem na odstawienie telefonu może być spędzanie czasu ze znajomymi i z rodziną. Zamiast chatowania z przyjaciółką przez telefon, pójdźcie razem na deserek i herbatkę! Jest to dużo lepsze, bo możecie spędzić razem czas, porozmawiać i nie myśleć o telefonie.

Możesz również zastąpić telefon innymi czynnościami. Możesz rozwijać swoje pasje, a nawet znaleźć nowe! Zamiast grania w Roblox, pójdź na rower. Zobaczysz, że dla twojego mózgu i oczu to świetny relaks. Zamiast grać w FIFE, idź na boisko z kolegami i zagrajcie prawdziwą rozgrywkę, poczujcie tę adrenalinę i oderwijcie się od smartfona. Naprawdę dobrze wam to zrobi!

Valentine's day

14TH FEBRUARY

Why is this day unique?

Valentine's Day is unique because it symbolically focuses attention on love, closeness and relationships between people. It is a day when many people consciously show affection through words, gestures and small gifts, reminding their beloved ones how important they are. Thanks to this, Valentine's Day becomes a moment of stopping in the daily rush and an opportunity to strengthen bonds as well as to express emotions that are unspoken on a daily basis.

Facts about Valentine's Day:

- In ancient Rome, there was the Lupercalia holiday, which is recognised as the prototype of Valentine's Day,
- The longest Valentine's Day kiss took 58 hours, 35 minutes and 58 seconds,
- In the USA, Valentine's Day for teachers is popular - children give them cards and sweets.

What to buy as a present for the person we love?

- 🌸 a bouquet of favourite flowers.
- 🍫 chocolates / pralines, his/ hers favourite!
- ✉️ a card or a love letter.
- 💍 jewellery with engraving.
- 🖼️ a frame with a photo of you together.
- 📖 a book with a special dedication.
- 🍷 a romantic dinner.
- 🎵 a playlist with his/hers favourite songs.
- 👉 a jar with reasons "why I love you"

Who is it?

Cupid is the Roman god of love. Showed as a winged boy with a bow - his arrows make people fall in love. In Greek mythology, he is called Eros.

What animals are with the same animal for the whole life?

- Swans - a symbol of fidelity, usually remain with one partner until death
- Penguins - they raise their offspring together and find themselves in colonies every year
- Wolves - an alpha pair creates a lasting relationship and together leads the herd
- Beavers - live in permanent pairs and together build a geraemia
- Eagles - often pair up for life and take care of the nest together

Olivia Dean

What is it and how did it start?

The Grammy Awards were established in 1959 by the National Academy of Recording Arts and Sciences in the United States.

The goal was to honor outstanding achievements in the recording industry, providing an alternative to purely commercial recognition.

Jakie plany ma samorząd uczniowski?

Planem samorządu jest przede wszystkim to, aby każdy uczeń czuł się komfortowo i dobrze w naszej szkole. Ma wiele pomysłów na urozmaicenie szkoły, a oto kilka na ten rok!

1. Dyskoteka walentynkowa 🍷

Dyskoteka to świetna okazja do wspólnej zabawy z przyjaciółmi przy muzyce i walentynkowej atmosferze!

2. Dzień bez plecaka 🎒

To zabawna inicjatywa, podczas której uczniowie przynoszą książki w nietypowy sposób, wykazując się kreatywnością.

3. Piknik szkolny 🧺

To idealne miejsce, w którym można spędzić czas z przyjaciółmi na świeżym powietrzu!

4. Dzień Piżamy

To zabawny dzień w szkole, kiedy wszyscy przychodzą w piżamach i jest luźna, miła atmosfera.

5. Miss i Mister szkoły

Samorząd Uczniowski ma w planach zorganizować konkurs na miss i mistera szkoły, podczas dyskoteki walentynkowej.

Lauretta

February in astronomy

WHY ARE STARS BRIGHTER IN WINTER?

In winter, the stars appear brighter because the air is colder and drier, and this makes it more transmit light. There is then less water vapour in the atmosphere and pollutants that scatter the light of the stars. In addition, very bright constellations such as Orion are visible in the sky in winter.

DO YOU KNOW THAT?

- In February, it is worth looking at the sky and thinking about... stars in love. They really exist – they are binary systems, which means two stars orbiting each other. An example is the famous Albireo, which looks like a pair of golden-blue eyes against the dark sky.
- It is not without reason that Venus is called the planet of love - in Roman mythology Venus was the goddess of beauty and affection, and in the night sky she shines like a bright gem that reminds of romantic dreams.

ORION - THE WINTER KING OF THE NIGHT SKY

Orion is one of the most recognisable constellations visible in winter. The easiest way to find it is after three stars arranged in a line - these are the so-called Orion Belt. In the constellation are the bright stars of Betelgeus and Rigel, as well as the famous Orion Nebula, the birthplace of new stars - visible even through binoculars. Orion comes from Greek mythology and depicts a powerful hunter. It is best to observe it on February evenings, high above the horizon.

GREAT PLANETARY PARADE

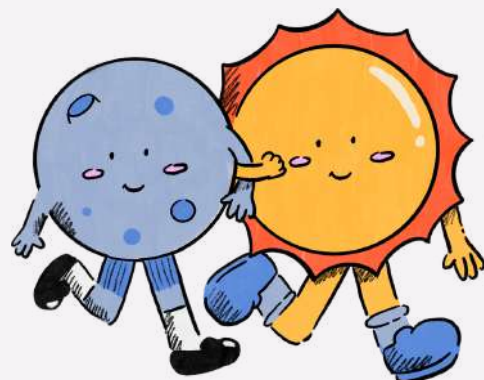

A Great Planetary Parade is a phenomenon when several planets of the solar system appear to be in line in the sky when viewed from Earth. They do not create a real line in space, but from our perspective they are close to each other. In 2026, the most spectacular parade will be on February 28, when six planets - Mercury, Venus, Jupiter, Uranus, Neptune and Saturn - will be visible in the evening after sunset.

CONSTELLATIONS VISIBLE IN WINTER

In winter, you can see some of the most beautiful and brightest constellations in the night sky.

Low above the horizon appears the Great Dog with Sirius, the brightest star in the night sky.

The Twins with the stars Castor and Pollux and the Woźnica, in which the bright Kapella stands out, are also visible. These constellations make the winter sky extremely glamorous and easy to observe.

Ola

CITY BREAK

PARIS

Fun Facts

- > One of Paris's nicknames is the City of Lights. Paris was called this way because it was one of the first European cities to install street lamps.
- > What is special about Paris is that it is home to the largest art museum in the world — **the Louvre**. The museum, which was built in the 12th century, covers an area of 72,735 square meters.
- > To view the entire collection of works in **the Louvre** would take at least **200 days!** In reality, that time still wouldn't be enough, because it would mean spending only **30 seconds** in front of each piece!
- > A walk from the southern point to the northern point of Paris takes 2 hours.
- > Paris has the only Disneyland in Europe just 32 km east of the capital of France.

WE REMEMBER

In Paris in November 2015, a series of terrorist attacks took place.

The attacks began at 9:15 p.m local time. Within a short period, there were three explosions and six shootings. The explosions occurred near the Stade de France in the northern part of Saint-Denis.

The deadliest attack took place at the Bataclan Theater. The attackers took hostages and clashed with the police. The police stormed the theater, which ended on November 14, 2015, at 12:58 a.m local time. Seven terrorists were killed. A total of 130 people died, including 87 at the Bataclan. Over 300 people were injured, 99 of them seriously.

Chinese New Year

The Origin of Chinese New Year

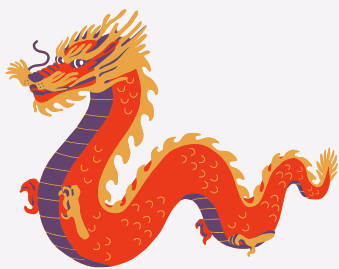

Chinese New Year originates from ancient customs over **3500 years ago** during the reign of the **Shang Dynasty**.

When do Chinese people celebrate it?

In 2026, people will celebrate Chinese New Year **from 17th February to 3rd March**.

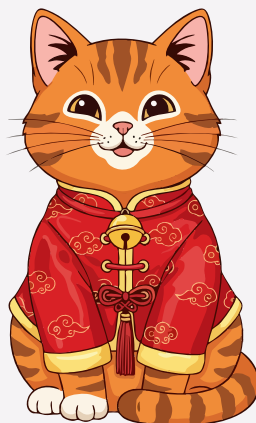

Why is the red dragon a symbol of Chinese New Year?

The red dragon is a symbol of Chinese New Year, because it is a combination of two important motifs in Chinese culture: the **dragon - a symbol of power** and the **colour red - a symbol of luck**.

Why do people celebrate it?

Chinese people celebrate it, because they want to symbolically say goodbye to old, bad things and welcome new and happy things in their lives.

Chinese zodiac signs

Chinese people have different zodiac signs from these we have in Europe.

In China, there are **12 zodiac signs, one for each year**.

Here is the wheel with all 12 zodiac signs so you can check which one is yours!

Interesting facts about Lunar New Year

1. Chinese people set off **fireworks** to chase bad spirits away.
2. The amount of money matters that is why people in China put money in **red envelopes**. They avoid **number 4**, because in Chinese it sounds like **death**.
3. This holiday is celebrated not only in China. It is celebrated in all Chinese neighbourhoods **around the world!**
4. **Oranges** and **tangerines** are symbols of wealth to Chinese people.
5. **The dragon year** is considered the luckiest one in Chinese culture.
6. The Chinese don't use **needles** or **scissors**, because they believe the items can cut good relations.
